RE: Certification of Conformance and Delivery for SC150

To Whom it May Concern:

This document has been drafted to provide certification as to the origin, properties and delivery of SC150, an Erosion Control Blanket (ECB). SC150 is produced by North American Green (NAG). The material is produced in the United States. Each roll is subjected to regular inspection and testing in accordance with the NAG Quality Assurance Program. Properties and specifications of the material are provided on document number WG\_MPDS\_SC150, attached as reference. Installation documentation may be found at [www.nagreen.com](http://www.nagreen.com).

Since most NAG products are sold to distributors and stocked, NAG is typically unable to certify material type or quantity delivered to the project/project site. However, space is provided below for distributor/contractor certification of materials delivered to the project/project site.

To the best of our knowledge, the information included is accurate.

A handwritten signature in black ink, appearing to read "Jill Pack", written over a horizontal line.

Jill Pack  
Product Manager  
North American Green

### Standard Material Delivery Certification

Material Provided by (Distributor/Contractor):	_____
Material Provided to (Contractor/Project):	_____
